NOTES TO FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The financial statements of MGIC Indemnity Corporation ("MIC") are presented on the basis of accounting practices prescribed or permitted by the Office of the Commissioner of Insurance of the State of Wisconsin ("OCI"). The OCI recognizes only statutory accounting practices prescribed or permitted by the State of Wisconsin for determining and reporting the financial condition and results of operations of an insurance company, for determining its solvency under the Wisconsin insurance law. The National Association of Insurance Commissioners' ("NAIC") *Accounting Practices and Procedures Manual* ("NAIC SAP") has been adopted as a component of prescribed practices by the OCI. The OCI has adopted certain prescribed accounting practices that differ from those found in NAIC SAP. Specifically, Wisconsin domiciled companies record changes in the contingency reserve through the income statement as an underwriting deduction. In NAIC SAP, changes in the contingency reserve are recorded directly to unassigned surplus. In addition, Wisconsin domiciled companies' annual contribution to the contingency reserve is calculated as the greater of a) fifty percent of earned premium or b) one-seventh of the result of the minimum policyholders' position calculation provided under Wisconsin Administrative Code Section Insurance 3.09(14). In NAIC SAP, the annual contribution to the contingency reserve is fifty percent of earned premium. The OCI has the right to permit other specific practices that deviate from prescribed practices. A reconciliation of our net income and capital and surplus between the NAIC SAP and practices permitted by the OCI is shown below:

- B. Use of Estimates in the Preparation of the Financial Statements no significant changes
- C. Accounting Policy
 - (1) No significant changes
 - (2) Generally, bonds are stated at amortized cost and are amortized using the modified scientific method in accordance with SSAP No. 26R, Bonds ("SSAP No. 26R"). We do not own any mandatory convertible securities or SVO-identified investments identified in SSAP No. 26R.
 - (3) (5) No significant changes
 - (6) Loan-backed securities are valued using the retrospective or prospective method and stated at amortized cost or fair value in accordance with their NAIC designation.
 - (7) (10) No significant changes
 - (11) Case reserves and loss adjustment expenses ("LAE") reserves are established when notices of delinquency on insured mortgage loans are received. Such loans are referred to as being in our delinquency inventory. For reporting purposes, we consider a loan delinquent when it is two or more payments past due and has not become current or resulted in a claim payment. Consistent with industry standards for mortgage insurers, we do not establish case reserves for future claims on insured loans which are not currently delinquent. Case reserves are established by estimating the number of loans in our delinquency inventory that will result in a claim payment, which is referred to as the claim rate, and further estimating the amount of the claim payment, which is referred to as claim severity. Our case reserve estimates are established based upon historical experience, including rescissions of policies, curtailments of claims, and loan modification activity. Adjustments to reserve estimates are reflected in the financial statements in the years in which the adjustments are made.

Incurred but not reported ("IBNR") reserves are established for estimated losses from delinquencies we estimate have occurred prior to the close of an accounting period but have not yet been reported to us. IBNR reserves are also established using estimated claim rates and claim severities.

LAE reserves are established for the estimated costs of settling claims, including legal and other expenses and general expenses of administering the claims settlement process.

Loss reserves are ceded to reinsurers under our reinsurance agreements.

Estimation of losses is inherently judgmental. Even in a stable environment, changes to our estimates could result in a material impact to our results of operations or financial position. The conditions that affect the claim rate and claim severity include the current and future state of the domestic economy, including unemployment and the current and future strength of local housing markets; exposure on insured loans; the amount of time between delinquency and claim filing (all else being equal, the longer the period between delinquency and claim filing, the greater the severity); and curtailments and rescissions. The actual amount of the claim payments may be substantially different than our loss reserve estimates. Our estimates could be adversely affected by several factors, including a deterioration of regional or national economic conditions, including unemployment, leading to a reduction in borrowers' income and thus their ability to make mortgage payments, the impact of past and future government initiatives and actions taken by Fannie Mae and Freddie Mac (including mortgage forbearance programs and foreclosure moratoriums), and a drop in housing values which may affect borrower willingness to continue to make mortgage payments when the value of the home is below the mortgage balance. Loss reserves in future periods will also be dependent on the number of loans reported to us as delinquent. Changes to our estimates could result in a material impact to our results of operations and financial position, even in a stable economic environment.

(12) – (13) No significant changes

- D. Going Concern
 - Based upon its evaluation of relevant conditions and events, management does not have substantial doubt about our ability to continue as a going concern.

- 5. Investments
 - A. Mortgage Loans, including Mezzanine Real Estate Loans not applicable
 - B. Debt Restructuring not applicable
 - C. Reverse Mortgages not applicable
 - D. Loan-Backed Securities
 - (1) Prepayment assumptions for mortgage-backed/loan-backed and structured securities were obtained from third-party sources.
 - (2) We did not recognize any other-than-temporary impairments ("OTTI") in the current reporting period.
 - (3) We do not currently hold any securities for which an OTTI has been recognized.

- All impaired securities for which an OTTI has not been recognized in earnings as a realized loss:
 - The aggregate amount of unrealized losses:

97,095 Less than 12 months 12 months or longer 2. \$ 508,042 The aggregate related fair value of securities with unrealized losses:

- Less than 12 months 4,637,629 2 12 months or longer \$ 10,242,477
- All loan-backed and structured securities in an unrealized loss position were reviewed for potential OTTIs; however, we have the intent and ability to hold these securities long enough to recover our cost basis. Cash flow analysis and credit research were used to support the conclusion that impairments are not other-than-temporary. The unrealized losses were primarily caused by an increase in prevailing interest rates.

- Fair Value Measurement
 - Assets and Liabilities Measured and Reported at Fair Value
 - (1) Fair Value Measurements at Reporting Date

We applied the following fair value hierarchy in order to measure fair value for assets and liabilities:

Level 1 – Quoted prices for identical instruments in active markets that we can access.

Level 2 - Quoted prices for similar instruments in active markets that we can access; quoted prices for identical or similar instruments in markets that are not active; and inputs, other than quoted prices, that are observable in the marketplace for the instrument. The observable inputs are used in valuation models to calculate the fair value of the instruments.

Level 3 - Valuations derived from valuation techniques in which one or more significant inputs or value drivers are unobservable. The inputs used to derive the fair value of Level 3 securities reflect our own assumptions about the assumptions a market participant would use in pricing an asset or liability.

Fair value measurements at reporting date:

		(Level 1)		(Level 2)		(Level 3)	Net Asset Value (NAV)		Total
a. Assets at fair value Cash equivalents - Money market mutual funds Total assets at fair value	\$_ \$	8,702,343 8,702,343		-	\$ \$	-	\$ -	\$ \$	8,702,343 8,702,343
b. Liabilities at fair value Total liabilities at fair value	\$ \$	<u>-</u>	- \$	-	- <u>\$</u> - \$	<u>-</u>	\$ -	\$ \$	-

- Fair Value Measurements in (Level 3) of the Fair Value hierarchy not applicable
- Policy on Transfers Into and Out of Level 3

At the end of each reporting period, we evaluate whether or not any event has occurred, or circumstances have changed that would cause a security to be transferred into or out of Level 3. During the period ended June 30, 2023, there were no transfers into or out of Level 3.

Inputs and Techniques Used for Level 2 Fair Values

We use independent pricing sources to determine the fair value of our financial instruments, which primarily consist of assets in our bond portfolio, but also includes amounts in cash and cash equivalents and restricted cash. A variety of inputs are used; in approximate order of priority, they are: benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, bids, offers, and reference data including market research publications. Market indicators, industry and economic events are also considered. This information is evaluated using a multidimensional pricing model. This model combines all inputs to arrive at a value assigned to each security. Quality controls are performed by the independent pricing sources throughout this process, which include reviewing tolerance reports, trading information, data changes, and directional moves compared to market moves.

On a quarterly basis, we perform quality controls over values received from the pricing sources which also include reviewing tolerance reports, data changes, and directional moves compared to market moves. We have not made any adjustments to the prices obtained from the independent pricing sources.

To determine the fair value of financial instruments in Level 1 and 2 of the fair value hierarchy, independent pricing sources, as described above, have been used. One price is provided per security based on observable market data. To ensure securities are appropriately classified in the fair value hierarchy, we review the pricing techniques and methodologies of the independent pricing sources and believe that their policies adequately consider market activity, either based on specific transactions for the issue valued or based on modeling of securities with similar credit quality, duration, yield and structure that were recently traded.

- Other Fair Value Disclosures not applicable
- Aggregate Fair Value for All Financial Instruments

The following tables set forth the aggregate fair values, admitted asset values and level of fair value amounts for financial instruments held as of June 30, 2023 and December 31, 2022:

Not

June 30, 2023	A	ggregate Fair Value	A	Admitted Asset Value	Level 1	Level 2	Level 3		et Asset ie (NAV)	Practicable (Carrying Value)

- Not Practicable to Estimate Fair Value not applicable $Other\ Items-not\ applicable$
- 22. **Events Subsequent**
 - We have considered subsequent events through August 9, 2023.
- Reinsurance no significant changes
- Retrospectively Rated Contracts & Contracts Subject to Redetermination not applicable
- Change in Incurred Losses and Loss Adjustment Expenses

 A. Reserves as of December 31, 2022 were \$320 thousand. As of June 30, 2023, there have been no payments for incurred losses and loss adjustment expenses attributable to insured events of prior years. Reserves remaining for prior years are now \$92 thousand as a result of re-estimation of unpaid claims and claim adjustment expenses. Therefore, there has been \$228 thousand of favorable prior year development from December 31, 2022 to June 30, 2023. The decrease is generally the result of ongoing analysis of recent loss development trends. Original estimates are increased or decreased as additional information becomes known. We did not adjust premiums based on past claim activity.

SUPPLEMENTAL EXHIBITS AND SCHEDULES INTERROGATORIES

The following supplemental reports are required to be filed as part of your statement filing. However, in the event that your company does not transact the type of business for which the special report must be filed, your response of NO to the specific interrogatory will be accepted in lieu of filing a "NONE" report and a bar code will be printed below. If the supplement is required of your company but is not being filed for whatever reason enter SEE EXPLANATION and provide an explanation following the interrogatory questions.

	<u>-</u>	Response
1.	Will the Trusteed Surplus Statement be filed with the state of domicile and the NAIC with this statement?	NO
2.	Will Supplement A to Schedule T (Medical Professional Liability Supplement) be filed with this statement?	NO
3.	Will the Medicare Part D Coverage Supplement be filed with the state of domicile and the NAIC with this statement?	NO
4.	Will the Director and Officer Insurance Coverage Supplement be filed with the state of domicile and the NAIC with this statement?	NO
	AUGUST FILING	
5.	Will the regulator-only (non-public) Communication of Internal Control Related Matters Noted in Audit be filed with the state of domicile and electronically with the NAIC (as a regulator-only non-public document) by August 1? The response for 1st and 3rd quarters should be N/A. A NO response resulting with a bar code is only appropriate in the 2nd quarter.	YES
	Explanations:	
1.		
2.		
3.		
4.		
	Bar Codes:	
1.	Trusteed Surplus Statement [Document Identifier 490]	
2.	Supplement A to Schedule T [Document Identifier 455]	
3.	Medicare Part D Coverage Supplement [Document Identifier 365]	
4.	Director and Officer Supplement [Document Identifier 505]
