Forward-Looking Statements

As used below, “we,” “our” and “us” refer to MGIC Investment Corporation’s consolidated operations or to MGIC Investment Corporation, as the context requires, and “MGIC” refers to Mortgage Guaranty Insurance Corporation.

This presentation may contain forward looking statements. Our actual results could be affected by the risks affecting the company which can be found in the risk factors included in our 8-K filing for the quarter ended September 30, 2022, and in other filings we make with the Securities and Exchange Commission. These risk factors may also cause actual results to differ materially from the results contemplated by any forward-looking statements that we may make.

Forward looking statements consist of statements which relate to matters other than historical fact, including matters that inherently refer to future events. Among others, statements that include words such as “believe,” “anticipate,” “will” or “expect,” or words of similar import, are forward-looking statements.

We are not undertaking any obligation to update any forward-looking statements or other statements we may make even though these statements may be affected by events or circumstances occurring after the forward-looking statements or other statements were made. No person should rely on the fact that such statements are current at any time other than the time at which this presentation was delivered for dissemination to the public.

Year of origination as displayed is determined by the calendar date the insurance was effective. Percentages based on remaining risk in force, including the percentage of risk in force delinquent.

(1) At time of origination; (2) In the fourth quarter of 2018 we changed our methodology for calculating DTI ratios for pricing and eligibility purposes to exclude the impact of mortgage insurance premiums. As a result, loan originators may have changed the information they provide to us, and therefore we cannot be sure that the DTI ratio we report for each loan includes the related mortgage insurance premiums in the calculation. (3) DTI > 50% less than or equal to 2% in origination years 2009 and later.

Year of origination as displayed is determined by the calendar date the insurance was effective.

- (1) Percentages based on remaining risk in force, including the percentage of risk in force delinquent. Other delinquency statistics are based on the number of remaining loans.
- (2) Reinsurance coverage percentage is calculated as the risk in force on policies with reinsurance coverage divided by the total risk in force. Approximately 94% of our primary risk in force was covered by a reinsurance transaction. Quota share reinsurance cede rate is a weighted average of 33% on eligible business for 2022, 32% on eligible business for 2021, 31% on eligible business for 2020, 30% on eligible business in 2019 and 15% for eligible business in 2016 and prior.
- (3) We terminated our 2017 and 2018 QSR Transactions effective December 31, 2021. We have elected to terminate our 2015 and 2019 QSR Transactions effective December 31, 2022.
